SUMMARY

Strategic designer with experience across branding, UX, and AI-powered digital products. I enjoy translating user insights and business goals into meaningful experiences through research, storytelling, and design. Passionate about building products and brands that are intuitive, memorable, and drive measurable impact.

EDUCATION

National Institute of Fashion Technology (NIFT), Bengaluru

Master of Design (M.Des)

2024 – 2026

Yaduvanshi College of Engineering & Technology

Bachelor of Technology (Computer Science)

2020

EXPERIENCE

Graphic Design Intern

Dec 2025 – Apr 2026

Recurr.co

- Designed 100+ marketing creatives for Ministry of Oats across social media campaigns, strengthening brand consistency and visual storytelling.
- Increased average organic reach from 200 to 6,000 views per post and helped grow the Instagram community from 500 to 1,000 followers through engaging visual content.
- Collaborated with marketing stakeholders to translate campaign goals into high-performing creatives using Figma and Adobe Creative Suite.

Product Design Intern

Jun 2025 – Aug 2025

Katalyse.ai (TransEngage Technologies Pvt. Ltd.)

- Designed user flows, wireframes, and high-fidelity interfaces for an AI-powered Shopify plugin that improves customer engagement and reduces cart abandonment through conversational experiences.
- Worked closely with developers and design consultants to simplify complex user journeys and refine product interactions.
- Iterated on interface designs based on usability feedback to improve clarity and overall user experience.

PROJECTS

Whole Fruit | Brand Strategy & Packaging Design | Repositioned a traditional fruit brand into a modern wellness brand through consumer research, brand strategy, visual identity, packaging, and digital touchpoints.

Personalized Travel Itinerary Platform | UX Design | Designed an AI-assisted travel planning platform that generates personalized itineraries based on user preferences, enabling flexible and context-aware travel experiences.
